

PEAK
Performance with
ZL 1500X
PEEK

ZL 1500X PEEK offers improved properties compared to standard PEEK. **ZL 1500X** provides higher purity, higher service temperature resistance and increased impact resistance in comparison to most high temperature engineering thermoplastics available today. **ZL 1500X**'s unique property profile will give you the opportunity to establish your company as *the* source for the latest technology for critical OEM applications in your area.

ZL 1500X is available in rod & plate.

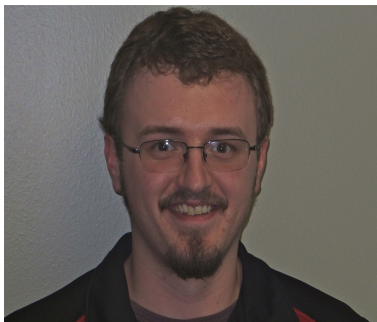

-*24" x 48" & 39"x48"" plate footprints available to optimize yields!*

-Rod stocked from 1/2" through 4" diameter.

If you have specific size requirements,
please call to discuss!

New addition to the ZL inside sales team!

We are pleased to announce the promotion of Mark Conner from the warehouse to inside sales. Mark began his career with **ZL** over a year ago in the warehouse overseeing

shipping, maintaining inventory counts and assuring all orders are securely packaged. His time spent in the warehouse will prove to be a valuable asset to our partners by understanding the importance of quick and accurate service first hand.

Take ZL With You!!

ZL's website is now smart phone freindly! This is a great tool if your in the field needing material information, property guides, ect. Simply scan the QR code with your phone and bookmark our website to your list of favorites for reference!
